

THE PIRATE

THE PIRATE

THE PIRATE
1960-1961
BEREA City School
BEREA, KENTUCKY

BHS

With our school year at an end, we have taken time to record and preserve some of the memories and experiences which have meant so much to us. We hope you enjoy sharing these events with us. We are truly happy to present this annual to you.

Dedicated with love to
you, Mrs. Cook, by the seniors
of '61, who have appreciated
your loyalty and understanding
through our high school years.

Bursting at the Seams

Forty-three children all crowd together in one classroom.

1st and 2nd graders squeeze together to hang up their coats.

More children than
playing facilities.

Bursting at the Seams

Music room is used for 3rd, 4th, and 5th grade room.

The cafeteria is used for the music room.

Room rented in bank building is used for the business room.

Chevrolet

Senior Class of 1961

ADMINISTRATION

Congratulations! Your high school days are complete. Chances are you have accomplished more than you realize. However, may I suggest you take an inventory. Become aware of your successes, feel good about the good things you have accomplished and then RALLY yourself for the exciting future.

My very best wishes to you all always.

Chapter 3 THE BEGINNINGS OF THE UNITED STATES IN THE UNITED STATES

The roots of American government reach deep into the past. Our system of government did not suddenly spring into being as at the wave of some political magician's wand. Nor was it pulled out of thin air by the

Our English Heritage. The French, Spanish, Dutch, Norwegians, and other Europeans settled in parts of what was to become the United States. But it was the English who came in the largest numbers. And it was the English who came to control the thirteen colonies that stretched for 1,300 miles along the Atlantic seaboard.

These early pioneers who cleared the wilderness and fought off the Indians had to hack out their own way to the future in the New World. But they came here in search of greater freedom and they brought with them the

Founding Fathers at Philadelphia in the summer of 1787. Rather, it has developed through long centuries of experience, tradition, thought, and deed. We shall now review the main points of these beginnings.

The Colonial Period

When and they brought much of their political thought with them. The ideas of a governmental system that they brought with them had been working and developing in England for centuries.

There were two main concepts of government in England. One was the idea of limited government, and the other was the idea of representative government.

(1) **The Idea of Limited Government.** This was the idea that government was not all-powerful, that government was limited in what it could do, and, especially, that it was limited in the sense

SETTLERS AT WORK

Early Americans had to live together in harmony, or they would not survive. This was called "government in order to live," the beginning of our government today.

of which are to be found today — county, borough, jury, sheriff, coroner, and justice of the peace, for example. And all of these were well-known in England long before the first Englishman ever heard of America.

(2) **The Twin Concepts of Limited Government and Civil Liberties.** They brought with them, too, the twin ideas of limited government and civil liberties. That is, that government is limited in what it may do, and, especially, that it is limited in the sense

that each man has certain rights that government cannot injure or take away. These great principles of freedom were proclaimed in such historic English documents as the Magna Carta in 1215, the Petition of Right in 1628, and the Bill of Rights and the Act of Toleration of 1689.

(3) **The Concept of Representative Government.** A third vitally important concept brought to America in English ships was that of representative government. For centuries there had been developing in England the

THE BEREA COLLEGE FIRE DEPARTMENT

The Berea College Fire Department has served the campus and the community for many years. Its members are trained at the Fire School of Berea College. Each year, the two chiefs and a student fireman study the newest methods of fire control at the State Fire School in Lexington. Operational expenses are shared by the college and the town, with the cost to the town rarely exceeding \$1200 a year. Because the College Fire Department stands ready to serve, fire insurance rates in Berea are lower than those in surrounding areas.

THE BERA CREAMERY

Founded in the early 1920's, the Berea Creamery introduced dairying into this part of Kentucky. Today, the Creamery buys over one million gallons of milk each year from nearby farmers and markets a variety of dairy products in Madison County and surrounding area. Through milk checks, payrolls, and purchases, it also adds nearly a half-million dollars annually to the local economy. The Berea Creamery thus serves the Berea community as both good neighbor and good business partner.
